

Plastic fuel filler tube

Construction and material:

External Layer	HDPE (original)
Tie layer	ad
Barrier Layer	EVOH
Tie layer	ad
Inner Layer	HDPE

Tube dimension*:

OD [mm] smooth area	40	35	31	*		
ID [mm] smooth area	35	30	27	*		
OD [mm] corrugate area	43	37	35	*		

Mechanical - Chemical characteristics:

Impact resistance J	250
Adhesion	Not peeling
Low temperature resistance	-40°C bending No crack
Permeation rates mg/TEST	4
Fuel resistance	Gasoline : good Gasol : good Diesel : good
Burst strength Mpa	1.7
flexibility	Good

Standard and :

Product	Minimum batchs	*	Minimum lenghts	*	Preformed	x
International standard						
Standard						
Application	FF line					
Patent						

* eventuals request to discuss with the customer
